owner of the milwaukee, wisconsin based distort and addict labels, doormouse has been producing some of the slammingest sick ass jams since 1852. the original midwest badass. one of my all time favorite producers. sick! dennis hopper sick. imagine camping with dennis hopper and he roofies you somewhere out in the woods and you wake up sewn to a family of badgers. well he's sicker. this man will tear you a new shithole. lots of folks talk all kinds of shit about dan, legendary shit, meat in his ass, crossfader dick, whatever, you fucks don't know shit, he's sicker than that.' (snares)

look out, here comes dan 'doormouse' martin presenting thirteen tracks of love fueled dribble punk beat box picture book mayhem. far beyond 'breakcore', 'easy listening' or 'bavarian folk music', doormouse kicks ass, balls, jaws and all the rest. perfectly well-placed sounds - a jazz trumpet, children's voices or jerry lee lewis combined with all sorts of rhythmic styles - think breakbeat, drum & bass, jazz, a human beatbox and other styles which haven't been invented yet - the result is something you cannot miss!

doormouse's parents approve this recording - and you can believe them, he's really a nice boy.
and remember what the doormouse said: feed your head!
its major changes time!
