

lusine icl. language barrier

cd. hymen records ¥760. june2k7

tracklist: 1. headwind, 2. caught in the middle, 3. a day apart, 4. stones throw, 5. 520 at 8:30, 6. jetstream, 7. without standing, 8. on the line, 9. 30 days and counting

digipak packaging

"language barrier" is jeff mcilwain's first album for hymen records since his "iron city" full length, released in 2002. (not including the 3" cd contribution for the "travel sickness" box set or the "condensed" singles compilation).

here, mcilwain explores his ambient side to a fuller extent than in any of his previous releases. beautiful chord structures melt with excerpts from his huge archive of field recordings. characteristic layers and treatments are mostly kept together by a metric structure accented with subtle rhythms. 'jetstream', for example, gets this structure from a sample-and-hold-like-treatment - restrained, but still very sonically detailed.

"language barrier" is ambient electronic music at it's best, providing a relaxed, entrancing sentiment - music to be listened to, carefully and often.
