Those Who Are Familiar With Ben Lukas Boysen's 5 Year Catalog Of Work Will Notice An Important Change While Listening To This Album. His Former Creations Can Be Seen As Explorations Of Different Sound Facets Transforming Boysen's Feelings Into Music. It Took Time For This Artist To Subordinate The Innumerable Technical Possibilities To Become Implements Of His Inner Self, And He Already Began To Walk This New Path With '0000'. Now, Boysen Qualifies 'Night Falls' As A Turning Point In Hecq's Personal And Musical History, And Also As A Conclusion Of What Hecq Stood For Until Now.

Artistic Expression Of Personal Experiences Are Often Difficult Because These Experiences Often Block The Artist's Creativity. In Exceptional Cases It Is Possible To Do, One Of These Cases Is 'Night Falls'. The Predominant Mood Of The Twelve Tracks Which Were Recorded As One Continuous Opus Ranges From Teariness And Melancholy Up To Beauty And Puissance, Unleashed By Discontent, The Assurance To Need A Change, Or Even A Stroke Of Fate.

Never Before Has Hecq's Music Implied Such Melodic And Compositional Richness. Comparing The Music On 'Night Falls' With Romantic Classical Music Seems Imaginable; Majestic Strings Interact With Electronic Soundscapes To Bring Sentiments Into Being. This Is A Manifestation Of A Person Who Is Aware That Changes Happen, And That Changes Have To Be Made. As Boysen Says: The Sixth Hecq Album Will Be Much More Different - This Fifth One Is The First Of Many New Steps To Follow.
